

# Communication and Pictures

## Videotaping Your Swimmer While Swimming

We ask all parents to sign a waiver so that we can videotape your child while swimming. The coaches occasionally do this to show the child his/her stroke and then tell him/her how to improve it.

## Photographs in Newsletter and on the Web

Questions occasionally arise about the use of pictures in the newsletter on the web. To avoid any misunderstandings, here is the team policy:

1. NCA celebrates team events by posting pictures of swim meets and other NCA activities on the web and in the team newsletter.
2. Because pictures from swim meets can involve many, many children, it is impossible for the team to guarantee in advance that any given child's picture will never be posted on the web or put in the team newsletter.

However, the NCA webmaster or photo editor will happily remove a posted picture at the request of a parent whose child is in the picture.

## Communications

Our primary method of communication is by postings on the NCA bulletin board at the pool, the monthly Team Newsletter – NCA News Splash, and postings on our website. Most all of our communications are also done via email and through our website. If you do not have access to a computer, a copy of all e-mails sent to the team will be available at the pool. You can also check out our website at [www.northcountyaquatics.org](http://www.northcountyaquatics.org) for program information. If you need to reach the coaches by phone, the number is 239-3013. School year office hours are generally 5:00 p.m. to 6:30 p.m. NCA's e-mail address is swimnca@sbcglobal.net.
